

ULTRA Stockless Anchor - Necessary Information

Boat:

- Type
 - Size
 - Weight
-

Anchor Pocket Measurements:

In addition, front, side or diagonal photographs are helpful.

If present, info about the anchor in use:

- Measurements and photos of the anchor
 - Measurements of the existing anchor shank on the joint side
 - The distance between the upper face of the existing anchor arm and the upper lip of the hawse pipe
-

New anchor info:

- is the new anchor going to be heavier or lighter than the existing one?
If so, which weight are they aiming for?
- does the customer want a bigger or smaller anchor (size wise)?
